Anna Graves

21<sup>st</sup> November 2016

Chief Executive

South Holland District Council

Dear Ms Graves

#### Surfleet Neighbourhood Plan

There have been discussions at the Parish Council, awareness raising consultations at open meetings within the village and parish of Surfleet, with a view to develop a Neighbourhood Plan for Surfleet. The proposed area for designation is the parish of Surfleet delineated on the attached plan.

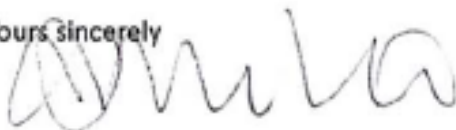

The area is appropriate for designation since it has a parish council which has oversight of the area and has links with the District Council when it is considering planning applications and consulting on development. It is a delineated area within the South Lincolnshire Development Plan. Given that the emerging Plan is looking at development sites in our area we wish to complement that work with a neighbourhood view.

The request for designation was on the agenda and formally resolved at a meeting of Surfleet Parish Council on 15<sup>th</sup> November 2016 in the following words:

Surfleet Parish Council, following consultations with the public, requests South Holland District Council to designate the parish of Surfleet to be an area for a Neighbourhood Plan. The Plan will be complementary to the South Holland Development Plan. The Parish Council considers itself to be a qualifying body in that it is a parish council of long standing for a particular area.

It would be helpful to know, when the area is designated, how South Holland District Council will fulfil its statutory duty to support, by the Planning department, for our development of the Surfleet Neighbourhood Plan.

Yours sincerely

Granville Hawkes

Clerk to Surfleet Parish Council
