

# Spalding Walk 4

Distance: 3.5miles  
approx

Walk time: ??????  
approx

## Spalding Walk 4 The Route

- 1 Walk down Buttermarket passage, left onto riverbank up to West Elloe Bridge. Cross into West Elloe Avenue.
- 2 Just past Coleman's builders cross over and enter pathway in front of houses that are set back off the road.
- 3 Turn right into Ladywood Road and then right into Chiltern Drive.
- 4 At the end of Chiltern Drive follow path around the left hand fence of playing field - (if the path is overgrown cross the playing field and exit through gate in far left hand corner).
- 5 Continue to follow the path alongside the cemetery, through gate and keep going until you reach an exit on the right that leads you onto the meadow. There is a trampled down path across the grass. Take the right hand fork of this path.
- 6 Cross the new bridge and walk along old railway line at back of hospital. Immediately past a new large wooden gate is a small tarmacked path, follow this into hospital car park. Carefully cross the car park - keeping to footpaths. Watch out for speeding ambulances! Head for pedestrian gate leading onto Pinchbeck Road - across staff car park.
- 7 Turn left through the gate along Pinchbeck Road, over bridge and left onto far bank of the Vernatts Drain.
- 8 At the first information board about the nature reserve turn right into the reserve and follow the path through trees and down steps to the meadow, cross the meadow and back onto the path by the cemetery. Retrace your steps to Chiltern Drive.
- 9 At end of Chiltern Drive turn right into Ladywood Road and right onto West Elloe Avenue.
- 10 After a few yards cross West Elloe Avenue and down the passageway (high wooden fence on left hand side of pathway) leading through Willesby Road and onto Albion Street.
- 11 Cross to the riverbank, turn right and head back to the South Holland Centre.
